COMPANY INTRODUCTION

Traditionally focused on the supply of spare parts for the weaving industry, ITG GROUP has evolved and developed into an internationally diversified company.

Today ITG GROUP covers different business lines:

Textile – Spare parts and accessories, machinery, supplies.

Textile Services – Operations in warping, dyeing and finishing.

Supply Chain Management – A reliable partner for the SCM needs of our customers.

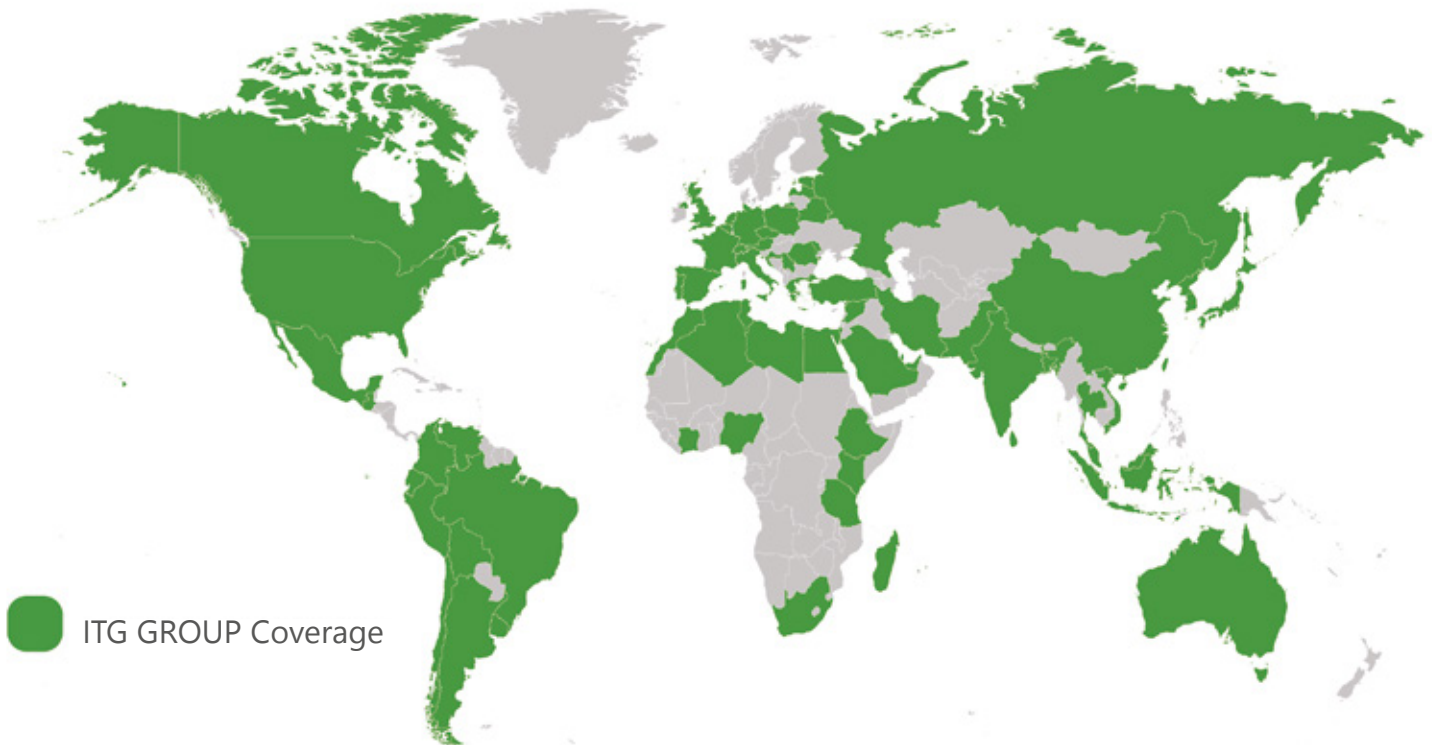

Agencies – Your choice for marketing solutions, sales and customer services.

Energy – Energy saving solutions and state-of-the-art LED lighting products.

Today, the Group comprises 9 national divisions and is represented by agencies and distributors in five continents. ITG GROUP has evolved into an international enterprise, capable of offering high-standard global services to over 1,000 customers.

 ITG GROUP Coverage

Agents and distributors
in **5** continents

9 national divisions

70 countries

Over **50** years of experience
in the textile industry

HISTORY

Founded in 1967 in Como, Italy, Giorgio Giamminola & C. is the historical seat of **ITG GROUP**.

In 2011 the seat was strategically transferred to the modern installations located in Shanghai.

The Company expanded, during the 1990s, with the establishment of subsidiaries: from Europe to Africa, from Central and South America to Asia.

Today, the Group comprises fifteen units and is present worldwide through an extensive network of agents and distributors.

1967 - Establishment

GIORGIO GIAMMINOLA & C. is founded in Como, Italy, specializing in the supply of spare parts, accessories, yarns, and textile machineries.

1980 - Acquisition

After the first steps of expansion in Libya and Algeria, in the 80's ITG GROUP enters Northern African markets, including Egypt. With the acquisition of Tac Tessile Accessorio, activities are also expanded in Italy. Moreover, OMITA S.p.A. is acquired, taking advantage of the exclusive sales of spare parts worldwide.

1990/2000 - Internationalization and industrialization

The Group expands in Europe, Africa, Central and South America, establishing technical and commercial enterprises to ensure a better support and local presence to its customers. The Group also invests in two industrial realities in Argentina: FILOTEX SRL in 1996, and ITALCOLORE SA in 2004.

2008 - Centralization of operations and restructuring

After 15 years of presence in Asia with a JV, the Group establishes Giamminola Shanghai Co., Ltd. The first steps are taken to lay the foundations for a new structure transcending the family business.

2011 - Social Responsibility

ITG Energy is created with focus on the development of energy saving solutions.

2014 - Joining the past with the future

The Board of Directors' aim is to strengthen high quality standards, personal attention, professionalism and efficiency of all its services.

LEADERSHIP

GIORGIO GIAMMINOLA

President

ITG GROUP was born back in the 1960's as a small family business in Northern Italy. Now, the original family unit has evolved into a modern and global enterprise, with presence in 70 countries.

Today, the Giamminola family, with the support of a strong leadership team, continues to run the company successfully, aiming at more ambitious goals yet ensuring that the company is driven by the original motivation and values.

Nevertheless, among our most important assets is our professional, highly qualified and diverse staff, core of what we are and what we do. Thanks to the great efforts of our team, ITG GROUP, with its business diversifications, plays an important role on the international scene.

Looking into the future, ITG GROUP will still bear the mission of "Building Something Great Together" through research, innovation, cooperation and trust.

Fifty years ago, Giorgio Giamminola & C. was built around the objective of providing great products for the textile industry. Nowadays, those values have grown, expanding from an Italian to a global perspective, yet our core value remain to bring the best industrial services worldwide.

As I look at the growth over the years, since our establishment, I am proud to see what we have successfully accomplished. In a constantly evolving business environment, we strive every day to keep up with the world's textile machinery technology and likewise to evolve and diversify into new business lines in order to deliver complete strategic solutions to our customers and help them run their business in an efficient way.

In the global marketplace, our customers trust **ITG GROUP** as a partner of their choice because of our expertise and commitment to the highest standards of service.
